

3rd Nordic RAS workshop

30 September – 1 October 2015

&

Excursion 2 October

Join the 3rd Nordic RAS workshop!

Meet other professionals with an interest in emerging RAS related issues!

Commercial RAS production is increasing and construction of increasingly larger systems that can handle intake -and especially discharge water and sludge is gaining more and more attention.

Consistent with this, the 3rd Nordic RAS workshop focuses on the following integrated and complex RAS related issues:

Topics

- Diet raw materials & RAS performance
- Particles in RAS
- Gasses in RAS
- Microbial water quality in RAS
- Fish health in RAS
- Energy and system optimization
- Partial reuse RAS
- Complete system approaches

Abstracts

Abstracts relating to one or more of the topics are encouraged. Submission deadline is Monday 1 June 2015 (see NordicRAS.net)

Registration

See NordicRAS.net

Workshop venue

Hotel Rica Seilet, Molde, Norway
